SFWMD Joins National Weather Service for Dry Season Outlook

Water levels remain above average in many areas of South Florida

WHAT: The South Florida Water Management District (SFWMD) and the National Weather Service (NWS) will hold their annual joint briefing about weather and water conditions for the upcoming dry season. With above average wet season rainfall and a record deluge from Tropical Storm Isaac, some South Florida communities received a year's worth of rainfall in six months.

WHEN: Friday, October 19, 2012

TIME: 10:30 a.m. to 11:30 a.m.

WHERE: National Weather Service Forecast Office Miami/South Florida
Media/Seminar Room
11691 S.W. 17th Street
Miami, FL 33165

WHO: **SFWMD** – Susan Sylvester, Chief of the Water Control Operations Bureau
NWS – Robert Molleda, Miami Warning Coordination Meteorologist

About the South Florida Water Management District

The South Florida Water Management District is a regional, governmental agency that oversees the water resources in the southern half of the state – 16 counties from Orlando to the Keys. It is the

oldest and largest of the state's five water management districts. The agency mission is to manage and protect water resources of the region by balancing and improving water quality, flood control, natural systems and water supply. A key initiative is cleanup and restoration of the Everglades.
