VACUUM SEWER SYSTEM**

Vacuum System Pumps

<b>Sites:</b>	Ousley Estates, Oak Lake Villas, and Town & Country Mobile Home Park
<b>Project Description:</b>	As one of the thirteen state-funded projects under the Phosphorus Source Control Grant Program, this project provides for residential waste to be collected by a newly installed vacuum sewer system for routing to the OUA wastewater treatment plant. The new system allowed for the replacement of a damaged gravity sewer system, closure of two localized package plants and closure of numerous individual septic systems within the service area.
<b>Performance:</b>	Estimated annual P load reduction from this project is 0.22 M Tons.
<b>Funding:</b>	\$506,000 (State Appropriation).
<b>Landowner Cost-Share:</b>	60 – 80% (Phase I construction, Land, O & M).
